

This morning, the children of Otters went on an exciting trip to see the Brixham lifeboat. Before they went, they learnt about the work of the RNLI, the volunteers and the boat itself. They created drawings of the different boats and formulated questions that they wanted to find out the answers to.

Once at the lifeboat station, the children had the chance to see and try on the clothes worn on a rescue, look around the life station and finally got to go on board and see what it is really like inside a lifeboat.

Many thanks to Barney and all at the RNLI for giving the children this wonderful learning opportunity.
